

Artificial Intelligence

Bryan Krueger Starr

Indian Hills Community College

course name

Luke Mathews

August 27 2025

Artificial Intelligence is widely used in today's time.

It is used for good and services, but it is also used for bad.

Hurting a lot of people, mostly in politics & social media.

AI has numerous concerning uses & implications that

warrant careful examination.

Recent warnings on these issues.

Bias & Discrimination

Racial & gender bias has emerged

Social manipulation & discrimination

Deep fakes & AI generated content blur reality & fiction

Private violation

Extensive surveillance capture, facial recognition

Expert warnings

Geoffrey Hinton considered the Godfather of AI

When you use AI for good, it's a great thing to have.
